## DOCUMENTATION WE PROVIDE

For each engagement, Gran Vía Pro supplies the documentation federal programs offices typically require for their records: a detailed scope of services, per-course clock-hour documentation (approximately 15 hours of live instruction per course), participant rosters and completion certificates, and invoices itemized by course and funding-eligible activity.

*Final determination of allowability rests with the district's federal programs office. Gran Vía Pro will gladly provide supporting documentation and participate in planning calls with federal programs staff to align services with your approved uses of funds.*
